A creative project competition

There are so many different ways to express myself. I can enter a competition using any kind of creative work. I'm making some outdoor art for my creative project find around me. For example CLM competition. I use the things I I use leaves to make some outdoor art. When it's windy, the leaves and flowers in my art move. The back of the school playground is better to make the art. When it rains, outdoor art looks terrible! I decided to put big cloth over it until the rain stops.

A description of a room

We moved into a new apartment last month. I'm happy because I have a new room. My new room is large, light and more comfortable. I share it with my brother, Hassan. We are always good friends. We have a long desk for PCs so we can do our homework in our bedroom. When we finish our homework, we can play computer games in our room. We watch cartoons with our friends, too.

My school week

We go to school from Sunday to Friday. I have to wear a school uniform. My school uniform and shoes have to be neat. I often walk to school when it's dry and sunny. I sometimes get the bus with my friends. We do more interesting subjects, like ICT. I like using computers! School starts at 8 am and finishes at 3 pm. We have an hour for lunch. I usually bring lunch from home.

Green City School

At Green City School, they want to help the environment. They use solar panels to make electricity. They recycle a lot of paper. They have a school garden to grow plants, vegetables, and fruit. It is a great place to learn about nature. The climbing frame in the eco-playground is made of recycled materials. In the garden we grow our own flowers, fruit and vegetables.

Classrooms on the roof!

In Egypt, some classes have their lessons in a garden on the roof of the school! The Shagara at school project designs gardens and green roofs for the school in Egypt. Green roofs are gardens on the top of a building. They bring nature into the city.They also clean and cool the air They are great for the environment. This project teaches students and teachers how to plant a roof garden.

We are all special

We are all different to each other. My friends and I are different. Shady is tall and wears glasses. He's very creative and likes drawing Laila is very kind, she helps everybody. She has straight hair. She can't hear very well, so she wears a hearing aid/ Amira loves drama and has curly dark hair. She also loves reading and always has books in her hands. Hesham is very sporty, and he's in the wheelchair basketball team. Seleem is great at math. He has short hair and wears braces.

(2) My pottery project.

My class worked on a pottery project at school this week. We started with a lump of clay, and we chose what to make. I wanted to make a bowl. First, the teacher showed us how to use a pottery wheel. Then it was our turn. We put on aprons over our clothes. When I put my clay on the wheel, it went fast. It was difficult, and I got messy. When my bowl was finished, the teacher put it in a kiln. This is a special oven which gets very hot. It makes the clay hard and strong. Finally, the bowl was ready and the teacher took it out. We waited for the bowl to be cool, and then I used special paint to decorate my bowl.

The importance of school trips

In my opinion, school trips are exciting learning experiences. First of all, we can learn a lot by visiting new places. When we learn about something in a classroom and then see it in real life, we understand it better.

In addition, school trips are often more interesting than only reading about things in books or watching videos. Finally, we can continue learning when we are back in the classroom after the school trip. We can do a project about what we saw on the trip. To sum up, school trips are a very important part of our education. I think we should try to go on one school trip every year.

Caring for your cat

If you have a pet cat, you should look after it. Give your cat lots of attention so it feels safe. You should stroke it. This means that you should move your hand over its back, or under its chin - cats love this! They like a warm, comfortable bed, but sometimes they just sleep on the couch! Don't wake it up - cats need to sleep for about 15 hours every day! They like small meals at different times in the day. Cats shouldn't have much milk to drink. Milk is bad for them. Water is better.

The importance of learning music

In my opinion, music is very interesting and relaxing.

First of all, all children should learn music at school. I think playing music is a good way to relax. In addition, learning music is a good way to be creative and use different parts of your brain. Finally, learning an instrument teaches us good habits. We learn that we have to practice to get great results!

To sum up, I think that we should learn more music at school.
